Res Mechanica **25** (1988) 387–388

CONTENTS OF VOLUME 25

Number 1

Recent Developments in Predicting Multiaxial Fatigue Failure 1
FERNAND ELLYIN (Canada)

An Overview of Recent and Ongoing Extended Burnup Studies at the OECD Halden Reactor Project 25
M. E. CUNNINGHAM, E. KOLSTAD & C. VITANZA (Norway)

The Apparent Activation Energy for Creep Rupture and Fracture Mechanisms 41
S. K. RAY, M. D. MATHEW & P. RODRIGUEZ (India)

Fatigue Crack Growth Threshold Behaviour of Granular Bainitic Microstructures of Differing Carbon Content 51
J. H. BULLOCH (Republic of South Africa)

Creep–Rupture Tests of Steel AISI 304 at 550°C in Liquid Sodium 71
HANS ULRICH BORGSTEDT, GÜNTER FREES & GÜNTHER DRECHSLER (FRG)

Thermally Activated Tension–Tension Cyclic Plastic Deformation 77
J. S. MSHANA (Tanzania) & A. S. KRAUSZ (Canada)

Conference Report 99

Number 2

Analysis of Fuel Behavior in Power-Ramp Tests by FEMAXI-IV Code . . . 101
T. NAKAJIMA (Japan) & KI-SEOB SIM (Republic of Korea)

Collapse of Earthquake Excited Tanks 129
F. G. RAMMERSTORFER, K. SCHARF, F. D. FISCHER & R. SEEBER (Austria)

An Experimental Study of the Response of Multiple Support Piping Systems . 145
TOSHIO CHIBA, RYOICHI KOYANAGI, NOBUYUKI OGAWA & CHIKAHIRO MINOWA (Japan)

Cladding Failure Probability Modeling for Risk Evaluations of Fast Reactors . 159
C. J. MUELLER & J. M. KRAMER (USA)

Influence of Uncertainties About Depth and Epicentral Location of Earthquakes on Seismic Hazard Analysis 171
M. CHÁVEZ (Mexico)

Review of Licensing Criteria for Soil–Structure Interaction Analysis 183
N. C. CHOKSHI, H. L. GRAVES & A. J. PHILIPPACOPOULOS (USA)

Res Mechanica (**25**) (1988)—© 1988 Elsevier Science Publishers Ltd, England. Printed in Northern Ireland

Number 3

Region Transition in Superplastic Deformation 195
CUI JIANZHONG & MA LONGXIANG (People's Republic of China)

Structural Problems Investigated in the Large Coil Task 203
M. S. LUBELL, J. A. CLINARD, J. W. LUE, J. N. LUTON, T. J. McMANAMY & S. S. SHEN (USA)

On the Theory of the Viscoelastic Solid 225
Y. M. HADDAD (Canada)

The Ballooning of Fuel Cladding Tubes: Theory and Experiment 261
R. S. W. SHEWFELT (Canada)

Number 4

Stress of a Driving Wheel Shell with a Six-Rope Winder: Calculation and Analysis 295
LU HONGSHENG (People's Republic of China)

Prediction of Creep Deformation and Rupture by Short-Term Constant Strainrate Tests 303
M. STEEN (Belgium)

A Novel Fuel Rod Performance Simulation Methodology for Predictive, Interpretative and Educational Purposes 321
NIELS KJAER-PEDERSEN (USA)

Numerical and On-site Experimental Dynamic Analysis of the Italian PEC Fast Reactor Building 339
A. CASTOLDI, F. MUZZI, R. ORSI, P. PANZERI, P. PEZZOLI, G. RUGGERI, A. MARTELLI, P. MASONI & V. BRANCATI (Italy)

Linear Matrix Analysis of Structures Containing Cracks 371
M. H. EL HADDAD, M. H. EL BAHEY & S. SAMAAN (Egypt)
